DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed on 10/24/2003, with respect to previous rejection of claims 1-2, and 10-14 (paper number 10) have been fully considered and are persuasive. The rejection of claims 1-2, and 10-14 has been withdrawn.
2. Applicant's arguments with respect to claims 1-2, and 10-14 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-2, and 10-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1, and 10 recite "loading the additional data into the line in the cache as it is received without waiting for completion

of the step of placing the first data in the line in the cache and onto the data bus". The underline part of the limitation is not supported by specification.
